

WEFA-LP Radio
Ocala, FL 34482

Federal Communications Commission
RM-11810 filing

To whom it may concern:

We operate 92.5FM in Ocala, FL under a 2nd channel waiver. This restriction prohibits us from any attempt to increase our power, or change our location if necessary. Because of current rules, we are locked into what already exists.

If RM11810 address 2nd channel waiver modifications, it may be beneficial to LPFM stations subject to the same waiver that we currently operate under.

Therefore, we welcome any changes that may allow such restrictions to be reduced.

Sincerely,
Ben Adams,
WEFA officer
